

Black Satin Hats

Affect the Military in Parisian Style

At least the one sketched above succeeds amazingly well in expressing the dashing style of a Napoleon in the manner of 1922. It is one of the new black satin hats—adaptations and copies of Paris models—that have recently arrived in our French Room. The pompon is of fur.

PAISLEY—Hats of Paisley and Persian fabrics are effective and most beguiling. All-over braided patterns—another new note.

Tans, browns, greys, greens, henna and navy blue are among the almost innumerable colors you will find in these materials. 54 to 55 inches wide, \$5 yard.

New Oriental Jewelry

With Beautiful Carving and Unusual Designs

We've just received a fascinating shipment of Oriental jewelry, earrings, necklaces, bracelets, pendants and brooches. Real stones, jade, topaz, amber, seed pearl, onyx, lapis lazuli, coral, carnelian, and amazonite, are among those most effectively and artistically used. Some of them are delicately carved in the most unusual and delicate of designs—a pendant of lapis lazuli, for example, on a white gold and pearl chain, and another of coral.

Some of the jewelry frankly is of the style worn by our grandmothers, earrings made of enamel and coral in quaint old-fashioned manner, or pendants strung on a black cord, or a beautiful amethyst set in heavy gold for a brooch. Every one is truly a work of art, the kind of thing you would be proud to own or to give to anyone. \$10.95 to \$200

Paris Has Sent Us Her Loveliest

Trimmings and Ornaments

In Our Trimming Department you will find a most enchanting variety of the newest trimmings, just here from France, most of them duplicates of those shown on original Paris models.
